To Whom It May Concern

I have been asked to provide a recommendation letter for Mr. Meet Solanki, who worked with me as a Teaching Assistant for four months. It is my great pleasure to do so.

I first met Mr. Solanki in January 2024 while I was teaching COMP 2800 (Software Development), in which he was a student. He later enrolled in my Software Engineering course (COMP 3110) in Fall 2024. Through these interactions, I had ample opportunity to observe him closely. Mr. Solanki is an attentive listener, exceptionally detail-oriented, and consistently strives for excellence. One of his greatest strengths is his persistence; he does not give up even when confronted with highly challenging problems. These are rare and valuable qualities.

Mr. Solanki served as my Teaching Assistant in Fall 2025 for COMP 3220 (Object-Oriented Software Analysis and Design). While many TAs focus solely on completing assigned tasks, he consistently went above and beyond. He assisted me in developing interactive tutorials and demonstrations to help students better understand design patterns. His motivation, initiative, and eagerness to solve complex problems were evident throughout the term.

In addition to his technical skills, Mr. Solanki possesses strong interpersonal abilities and sound judgment. Disagreements can naturally arise in collaborative environments, yet I consistently observed his patience and professionalism in addressing such situations. He listens carefully to others' viewpoints, adapts well to challenging circumstances, and remains highly self-motivated in his work. These qualities are not easily acquired and are essential for effective teamwork.

I strongly recommend Meet Solanki as an outstanding professional candidate. Should you have any questions, please feel free to contact me by email (masaduzz@uwindsor.ca) or phone (519-253-3000 ext. 3751).

A handwritten signature in black ink, appearing to read 'Asaduzzaman'.
